

# BioDigitalPC® M1

## PRODUCT OVERVIEW

ADDC has developed a micro-form factor docking station for use within integrated products such as monitors, tablets, TVs and micro client setups. Utilizing a small energy footprint, the M1 is the easiest way to integrate into larger platforms while maintaining standard connections.

The M1 comes complete with a BioDigitalPC® Docking Connector, one USB 3.0 port, three USB 2.0 4-pin headers, one PCIe x1 connector (optional), a 5VDC power header, a Mini-DisplayPort video connector, and an external 12V PCIe power header.

BioDigitalPC® products encompass a revolutionary computing system which allows for maximum flexibility with minimum footprint, weight and energy consumption.

The M1 is compatible with all of the BioDigitalPC® products.
