

Boot to USB Drive

HOWTO: Boot from USB Drive

Start/Restart your BioDigitalPC® by removing and then plugging the BioDigitalPC® Card into your reader

Press the DELETE key rapidly on startup to get into the BIOS

Once in the BIOS, go to the 'Boot' Tab by pressing the LEFT ARROW and RIGHT ARROW keys

Use the DOWN ARROW and UP ARROW keys to navigate to the option named:
Hard Drive BBS Priorities

NOTE: Setting the Boot Option #1 to your USB Drive WILL NOT WORK!

Once Hard Drive BBS Priorities is highlighted, press the ENTER key

You will be taken to a new screen with the option Boot Option #1

NOTE: This is NOT the same as the above Boot Option #1! Read the note above for clarification.

While Boot Option #1 is highlighted, Press the ENTER key

Select your USB Drive from the list that appears, by using the UP ARROW and DOWN ARROW keys

Press the ENTER key when your USB Drive is highlighted.

Press the ESCAPE key

Confirm your flash drive is selected as Boot Option #1

Choose the non-UEFI option.

Use the LEFT ARROW and RIGHT ARROW keys to go to the Save & Exit Tab

Make sure Save Changes and Exit is highlighted, and press ENTER, twice

Follow the Instructions on the screen to install from your USB Drive
